EXPERIENCE

BBO Co. Ltd., Cebu Business Park — PHP Developer

November 2019 - March 2021

Participated in the development of CMS and multi-level marketing (MLM) platforms. Involved in building core functionalities and maintaining existing systems using Laravel and related technologies.

Beeforce Security Service, Lapu-Lapu, PH — PHP Developer

April 2021 - February 2024

Spearheaded the development of a custom content management system (CMS) tailored to the operational needs of the security agency. Handled both front-end (Bootstrap) and back-end tasks as a full-stack developer using Laravel, ensuring efficient data handling, reporting, and role-based access.

Forty Degrees Celsius Inc., Cebu Business Park — PHP Developer

February 2024 - PRESENT

Working on an online language learning platform. Tasks involve full-stack development and maintenance, including feature enhancements, bug fixing, and improvements to the learning management system (LMS). Collaborating with a team to support scalable, user-friendly web applications.

Digitus, Outsource (Freelance) — PHP Developer

March 2023 - 2025
Grace Fatima Berdon - gdigaynon@hayatcomm.net

Provide ongoing maintenance and feature enhancements for existing CMS. Tasks include debugging, implementing new functionalities, and optimizing performance during off-hours.
